

Things I need To create a youtube video

- 1.First Find A Niche For My Channel

- 2.Then Using ChatGpt You Have to Find The Outline of The video

- 3.Now use it for making audio for our video by using veed.io

- 4.Use Pexels and install videos for footage

- 5.Now Search in Chatgpt for appealing Video title related to the topic

6. Now for thumbnail use canva or dall-e2

- 7.Now use VidIQ for optimize the search and use long tail keywords

Then boom You are ready to go
